Introduction of Progress Report

The report is presented to CEO of Lahore Leads university which has been highlight some important issues regarding the lecture rooms and class room which are not updated and upgraded according to the student and teacher requirement.

The following issues has been addressed as followed and the solution is not provided yet , the issue has been facing by Computer science and IT department since 2020.

In my view the university have 12 franchise and good student ratio, which has enough finance to manage and organized the classroom according to HEC and NCEAC requirements.

Objective

The objective of this report to update the classrooms and computer lab according to NCEAC and HEC.

1. Update Latest Projector which full resolution and good infrastructure.
2. NON breakable WIFI connection
3. Computer Lab updated.

Methodology

Methods to process these requirement as follows

CEO of the university will approve finance to buy new projector and new WIFI router with access point to install on various locations of the computer science class room.

1. 15 latest projectors required to update the class room
2. 15 routers required
3. 15 access point required.

Registrar office will be able to initialize this projection by approval of Dean/HOD of Computer science department.

The following projector and WIFI brands :

1. [Epson Pro EX9240](#) (projector)

PROPOSAL REPORT

2. [RUCKUS router](#) includes access point

It is requested and suggested that the approval has made by the HOD/Dean and initialized approval of Registrar office of leads university and final decision has been made by the CEO of university to process this task.

Finally finance department release payment and recommend to sales department to buy them.

SR No	Brand	Price
1.	RUCKUS Router	13000 – 130,000
2	Epson Pro EX9240	345,000

Conclusion

The concluded remarks of this report to release payment on priority without any delay and issues. It is requested to CEO of the university to made this decision on urgent basis.
